WHAT IS VIETNAM AEROSPACE FORUM?

VIETNAM AEROSPACE FORUM is an international business convention focused on the aerospace industry, bringing together key areas such as supply chain, maintenance, investment, infrastructure management, commercial development, and training to drive the sector's growth in Vietnam.

B2B MEETINGS

Meet international companies and connect with global contacts over two days through personalized one-to-one meetings.

CONFERENCES

Overview of Vietnam's aerospace sector, including challenges, MRO growth, supply chain evolution, airport infrastructure, and innovations such as AI, biometrics, and smart mobility.

INDUSTRIAL SITES VISITS

Take part in the opportunity to visit some of the local facilities and exchange with site management.

WHY VIETNAM?

Vietnam is one of the fastest-growing aerospace markets globally.

A growing skilled workforce is strengthening the aerospace sector.

Over 43.000 new aircraft will be needed in the next 20 years.

Passenger traffic Air traffic in Asia-Pacific is set to grow by -3.5%-4% annually.

Airports Network operates a network of 20+ airports nationwide.

Air cargo demand is expected to nearly double by 2045.

Airports Corporation of Vietnam (ACV) is leading major airport expansions.
